

How to wash a woolly mammoth

By Catalina

Does your woolly mammoth need a wash? Well then if you follow these easy steps, you will be able to clean your mammoth.

Equipment list

Large mammoth

Bath tub

40 bottles of shampoo

BIG brush

Trampoline

Method

1. First get the bath full with water.
2. Next add the bubbles
3. Then get the mammoth in the bath which may take a while!
4. Start scrubbing but watch out for his tummy!
5. After that start washing the hair with shampoo. Watch out for its eyes because they will sting.
6. The mammoth might go hide if you get shampoo in the mammoth's eyes.
7. Share a bath with the mammoth.
8. Then snuggle up together.

How to wash a woolly mammoth

Does your mammoth need a bath? Well this recipe will let you clean it.

Equipment list

Mammoth

Gigantic bath tub

Shampoo x 100

BIG comb

Towel (extra large)

Hair drier

Method

1. Fill the bath up with water. If your mammoth is thirsty you might need to repeat the step.

2. Add the mammoth to the bath by leading it with cake.

3. Scrub the mammoth's back, tummy and hair.

4. Do not get the soap in its eyes!

5. If it climbs up a tree you will need to get a trampoline and bounce it into the bath.

6. Share a bath with the mammoth.

7. Finally bring in the towels and snuggle.

Does your mammoth need a bath?

Equipment

- 1 dirty woolly mammoth
- Shampoo
- Large bath
- A cosy towel
- Tasty cake
- Bubbles
- Ladder

Method

1. Bake a cake for the woolly mammoth. Show him the cake and lead him into the bath tub.
2. Next wash his tummy but be careful he is very ticklish.
3. Get some shampoo and scrub his ears. Don't get it in his eyes!
4. If it does get in its eyes you may need to get the ladder and climb up to get the mammoth down.
5. Snuggle together with a cosy towel.
