

# Orangutan letter

To the Indonesian Government.

I am writing to tell you that orangutans are in HORRIBLE DANGER. Did you know that orangutans are being killed? We must urgently do something about this. There used to be 300,000 in the world and now there are only 60,000 left.

It will be a major catastrophe if we don't do something as orangutans will become extinct. We need to stop chopping trees down immediately because the forest is the orangutans' home.

Remember, orangutans are dying!

Yours sincerely

Charlotte.

# Orangutan letter

To the Indonesian Government,

I am writing to tell you that the orangutans are in danger. Stop hurting the orangutans and don't let any of your army kill them. Please also stop chopping down trees and building houses in the rainforests where the orangutans live.

Just be kind, friendly and helpful to them and make friends. Don't let any of your army sneak in and harm the orangutans. Be friendly.

Your angry friend

Shahid.
