

Pupil Voice Groups views on our

'Inspirational Learning Community

Prior to the meetings the staff have provisionally defined an 'Inspirational Learning Community' as:

- Igniting a love of learning
- Empowering partnerships
- Nurturing a Growth Mindset

Below are some of the ideas the pupils shared in their Pupil Voice Group sessions.

Community

- Working together / team work
- The whole school coming together
- Being kind and caring towards each other
- Celebrating other people's achievements
- Lots of people working together to create something
- Working together for others
- A bunch of people joining together for a bigger goal

Learning Community

- Growing your minds together
- Helping each other learn
- Being kind, caring and loving towards other learners
- Learning together and learning more from others
- Joining a group helps you learn

Inspirational

- People who lead others into an interesting life
- People who encourage you
- People who don't give up – they persevere
- Learning from your mistakes
- Using or magpie-ing others ideas
- Someone else makes you want to have a go / try something
- Others help you get better
- Like dominoes – it spreads
- You look up someone and want to be like them
- You're trying and you can try a bit harder – then you get better

How do we learn and improve together at Cornerstone?

- You have to listen to people to learn / improve
- By helping each other
- If you learn you can get better
- By doing and thinking
- By learning outside
- Show people and then let them have a go
- By joining in
- You have to make mistakes to improve
- By playing new games
- By talking to others
- By practising

Examples

- My friend is really good at number bonds – I'm trying harder to get better like them
- Someone getting a Blue Peter badge has inspired me to want to help others more
- I watched a friend dancing and then I practiced the new moves
- A friend was reading me a story really well which made me want to learn to read
- A friend inspired me to have a go at doing flips over the bar on the Trim Trail. It looked quite hard, but she kept encouraging me and now I'm getting quite good at it.
