L.A. To write a non-chronological chronological report 😊

Non-Chronological Report - Success Criteria	
Structure	Language
✓ Title and subheadings	✓ Technical vocabulary
✓ Introduction	✓ Present tense and third person
✓ Paragraphs with cohesion	✓ Variety of sentences - compound, complex and simple, relative clauses.

★ Zigon: The ^{ice} giant ^{icy} planet

Zigon, which is located in the centre of the asteroid field, has become a world wide phenomenon. Even though Zigon is rarely new to us, we still have lots of information.

Appearance

Since the planet Zigon is an ice planet, we have decided to name it 'The Ice Giant'. The planet's surface, which contains ^{two} important ~~two~~ jewels, stallegtites and stallegmities, is not safe for humans due to the temperature. In the centre of the planet, there is a diamond, which powers the planet. The diamond powers the rest of the planet including the life on Zigon. There are 50,000 stallegtites and stallegmities on Zigon. Zigon is a ^{army's best} purple planet but also glows blue.

Temperature

The temperature on Zigon is quite ^{different} to the temperature on the rest of the planets. ^{despite} Zigon's ^{temperature} temperature does not go over 10°C. The highest ^{temperature} the temperature has ever been is 5°C, and the lowest it has ever been is -580°C. ^{There} is a big temperature ^{difference} difference in the temperature at day (-100°C) and night (-560°C).

Life on Zigon

Life on Zigon is ^{different} to Earth because it is a snow and ice planet. The life on Zigon is powered by the diamond at the core. We have heard of life such as Ice dragons, ~~Blizzard~~ ^{Blizzard} ~~Blizzard~~ ^{Blizzard} pigs, Ice creepers, which are ^{all} explosive and Ice Samuri. These live in the ^{Blizzard} ~~Blizzard~~ ^{Blizzard} Forests ~~at~~ ^{at} which are ~~at~~ ^{at} all around the planet. The Ice Forests Dragons give ice and their bodies are covered in crystalized ice and ice shoot out of their ~~thier~~ ^{their} tail. Despite the temperature on Zigon, ^{they} there is still life.
